A Republican Victory of Colossal Proportions.

Democrats Are Routed and Demoralized.

(Special by Telegram.)

The elections yesterday in the various states resulted in a most overwhelming victory for the Republicans. Everywhere the tide is the same.

New York Republicans elect their state ticket by over 50,000 majority. Maryland, Dem. for Judge of the Court of Appeals defeated by nearly 10,000.

Ohio elects McKinley by 75,000 majority, and thereby makes him the next President.

Town of Green Bay, Wis., 20,000. Massachusetts elects Republican state ticket by 10,000 majority.

Pennsylvania gives the Republican ticket 60,000 majority.

New Jersey goes Republican by a safe majority.

Gary, the Republican candidate for Judge in Cook county, Illinois, is elected.

In Detroit, Ingalls is elected by from 3,000 to 5,000, and city ticket all elected with one exception.

To Grover Cleveland, White House, Washington: How is the baby, Answer collected.

To Gov. Hoar, Iowa: How is your Presidential campaign progressing? Answer by mail.

Northern Michigan. The muskies around Detroit have recorded the fact that the coming winter is to be a severe one.

Judge-elect Corbett, of Rhode City, is out after deer.

Charles is put under the "heel" in considerable quantities by the Pitt brothers, fishermen. Last year they caught over 1,000 sturgeon. Some of them weighed 100 pounds each. A sturgeon weighing 75 pounds will yield about 10 pounds of caviar, besides oil, sturgeon and meal.

The race between the Petoskey and Charlevoix on the principal that first come would be first served and get the 1400 bushels of potatoes in the warehouse at the dock, caused some unusual attention here yesterday and to-day. The Petoskey was the winner and left this morning with the potatoes stored away in the hold, for the "Chicago market."

Traverse City Herald. Andrew Dougherty, of Perry, Oklahoma, who has been selling houses and farms at Elk Rapids.

The Northern Michigan Hunting Commission's Association held a large and important meeting at Traverse City on the first.

Among other business it was decided to decrease the next season's cut to 50 per cent. of what it was last year.

Petoskey Herald. Mr. J. A. C. Brown met with an accident in Chicago last Thursday which injured him so that he was unable to work.

He had come down from Jackson Park on the cable car and when approaching his hotel committed a slip which caused him to fall from the car.

He was taken to the hospital and is now recovering from his injuries.

He is expected to be able to return to his home in a few days.

He is now resting at his home and is expected to be able to return to his home in a few days.

"The Street In Carlo,"

In one of the most interesting of the numberless things to be seen at the "World's Fair," there is reproduced almost every phase of life from that old Egyptian city. Canals and their drivers, donkey's and donkey boys, shops, theatre, temple, mosques, etc., etc., and children, dancers, merchants, priests, jugglers, all living and conducting themselves as at home.

We have a table from that street an ancient Egyptian land, said to be between 3 and 4 thousand years old. Come and see it at our store and if you want

Carpenters tools, Guns, Ammunition, Paints, White Lead, Glue, etc. Vanishing, Brimley, Saw, Axes, Handles, Cast Iron, Chains, and hundred of other things.

Examine our goods and prices, you will find them BOTH right.

So will our beautiful summer months pass away and the cold blasts of winter, blowing through our windows, will undoubtedly make us think

"Where are our Summer's Wages Gone!"

The Election.

The results of the elections of last week Tuesday amount, substantially to a tidal wave of popular confidence in democracy.

The chief cause of Republicanism, protection, was victorious in the Ohio campaign, where protection's chief champion was the chief candidate.

McKinley's victory campaign, rejected beyond the borders of the Buckeye State, and Republicanism is triumphant, because Republicanism is right.

There can be no misrepresentation of the lesson conveyed. Democracy has done what it can always be trusted to do when fate clothes it with opportunity, it rejected itself, wavering, inconsistent, and incompetent. The promised fruits of its avowed policy had already turned to ashes, and the wreckage of its headlong and impetuous course beset the land.

The election of the fall of 1904 marks the beginning of a Republican spring that will sweep the last vestige of democracy from power.

The figures.

The Republican figures are as follows:

In New York, Judge Bartlett majority over Meyer was 8,000.

The vote ticket was elected by about 40,000.

McKinley's plurality over Taft in Ohio, was 82,000.

In Iowa, Jackson's majority over Howe, was 44,000.

Pennsylvania, 35,000.

Massachusetts, 35,000.

Republicans carried the legislatures of Ohio, New York, Massachusetts, New Jersey, South Dakota, Iowa and Kansas.

Judge Gary, in Cook County Ill., was elected by 8,000 majority.

Who Was Sought?

Capt. Ford (barge) of the tug Avery, the second day after the election, was out on a fishing trip.

He sighted a schooner and ran alongside. The captain hailed Ford.

"Can't get a load in there?" "What do you want?" asked the master of the Avery.

"A load of Democrats," replied the skipper.

"Can't get 'em," answered Ford, as he rang a bell to go ahead. "There are only two in town, and they have to be hauled over the line."

Now watch Billy McKinley's name.

Where are the roses that were so conspicuous last year?

The Republicans have got a good running start for '06.

It is reported that there were a few Democrats elected in Kentucky.

Cleveland or democracy, which means "over" the "free Democrats."

Many leading Democrats thought the country would be the result of the recent election is a death blow to free trade, and must necessarily have its effect upon the tariff bill now in process of formulation.

Candidate Neal, whom the people of Ohio have buried beneath an avalanche of abuse, is not a bad man personally, but he introduced the free trade plank in the national Democratic convention, and free trade isn't popular this year.

The "Two Democrats" boys it all to Cleveland, and 22,000 defeated his party by his last administration and if he is allowed to have his own way he will do it again. It would be interesting to know just what diploma of appointment Mr. Hampton could.

Mr. Hampton, in the "Two Democrats" game as to explain it all, you know, but acknowledge that the result will be foolish to deny that the result is an emphatic protest against democratic rule. That is a very accurate conclusion, Mr. Hampton, and a very correct one, but you don't go far enough. The protest was just as emphatic against democratic principles.

Say, Billy, it is interesting that you should be compelled to be so far responsible for the editorial statements of the Charleston end of the "Two Democrats" holding as you do a convention signed by Governor Cleveland. In your last issue you gave Cleveland a better responsible for the recent democratic success. For a politician, that language is high praise.

It was General Hancock who said that the tariff was a "food issue." That doctrine is emphatically maintained in the democratic tariff schedule (as reported by the ways and means committee).

The addition to the tariff of protection is appalling, from the cost of labor, salt, wool and broadcloth, and the duty on all sorts of farm products is greatly increased. These things added, the members of the committee, "must necessarily stimulate production. Their production is not to be taken in, it is to be taken out of the country's industry. History, sheep breeding, to cite a single example, has expanded by leaps and bounds under legislation which has protected wool, and just as naturally has suffered decrease when the protective duty on wool has been mysteriously reduced.

Upon business, hardly has time passed on economic grounds, the pending bill is a dagger. It is a stab to the heart of the tariff. It is a stab to the heart of the tariff. It is a stab to the heart of the tariff.

Charlevoix Sentinel.

Established 1869.
WILLARD A. SMITH, Prop.
CHARLEVOIX, MICH., JAN. 10, 1894.

The past thirty years. His voice in the market has been a constant reminder to the people of the value of the Sentinel. There is no more probability that he knows what he is doing for now than that he knew what he was doing for thirty years.

Mr. George Persons, residing on the shore of Torch Lake, Mr. P. says there is a pair of muskrat tails hanging from the rafters of a building at the Torch Lake. The muskrat is a very valuable animal, and it is not known whether it is a male or a female. The muskrat is a very valuable animal, and it is not known whether it is a male or a female.

It Used to Be the Fashion but It Don't Do Now.

"One thing, William, 'face you got' continued Uncle Jim. 'After I passed, you all know this year man Hount.' 'Certainly,' I replied. 'I know Hount very well. He was in Congress with me for a great many years.' 'What for a man is this year Hount?' asked Uncle Jim. 'One of the best in the world,' I answered. 'Hount is one of my best friends. He is a good and able man.' 'Was he in the Congress?' 'Yes,' I replied. 'I believe he was.' 'And he pulled down the American flag at Hount's, didn't he?' 'Way, Uncle Jim,' I explained, 'he had to pull it down. You see, Hount's order.' 'William,' interrupted Uncle Jim, 'making his hand, you was in the Congress, and so was I, and you all know I for four years for the South. And William, you can tell this year George Hount, for no that pulled down the American flag didn't win them, and it won't win now. William it won't win.'"

POLITICAL ITEMS.

The subcommittee appointed to draft a law looking to a repeal of the 20 per cent. tax on state lands, division, seems to be divided. This is the Democratic party on nearly everything.

The Democratic promise of cheapness as the result of free trade or tariff is form is being fulfilled. Many factories in this country are now saving thousands of dollars, having during the past few weeks been able to ship their goods for less than as many months.

The success of the Democratic party has not only paralyzed the manufacturing industries of the United States, but it has also paralyzed the industry of the people. The Democratic party has not only paralyzed the manufacturing industries of the United States, but it has also paralyzed the industry of the people.

THE MAN AT THE WHEEL.

The man at the wheel has a grave responsibility. He has to be careful of his own safety, and he has to be careful of the safety of the people. He has to be careful of his own safety, and he has to be careful of the safety of the people.

The paper has a slightly textured appearance with some minor creases and discoloration, characteristic of old paper. The left edge of the page is bound into a dark, possibly black or dark brown, cover material. The overall lighting is even, highlighting the subtle variations in the paper's tone and texture.

AND A

LARGE VARIETY

AT

W. H. McCARTNEY & CO.

The Republican Village ticket was elected Monday. The paper states that the straight vote of a total of 1,000.

It cannot be any more locked upon as a party ticket, as many of the Democrats, who had no ticket in the field, voted with the Republicans, and some with the population at large.

At Petoskey the Republicans cleared every man on their ticket by 175 majority, a big gain over any previous year.

The first primary has more people than seats.

The report of tardiness for the month ending March 28 is as follows:

High School: Grammar Department, Seventh and Eighth grades.

Fifth and Sixth grades.

Primary Department, Fourth grade (Main Building).

Fourth grade (New Hall).

Third grade.

Second grade.

First grade.

Total.

Let us have a better report for the present month.

The schools are preparing for an entertainment to be given at the close of the year. Further announcements will be made in due time.

Ernest Pease of the High School is completing his sixth year without absence in attendance. Who can show a better record. We hope others in the school will be interested in making such a record.

The eighth grade is struggling with mathematics in Arithmetic.

The first grade is enjoying "Grandfather's Chair."

If the sum of two opposite sides of a quadrilateral is equal to the sum of the other two opposite sides, a circle can be inscribed in the quadrilateral, is a standing problem of the geometry class.

There will be a concert held in the town hall in the Village of Newwood on Saturday the 30th day of March 1934 at 8 o'clock p. m. for the purpose of raising funds for the purchase of a new school building.

CHARLEVOIX SENTINEL.

Established 1890.
WILLIAM A. SMITH, Editor.
CHARLEVOIX, APRIL 4, 1894.

Lost, somewhere, within the last three weeks, one thoroughbred chestnut of Charlevoix county. When last seen he was heading north. May be City is keeping large bays, and other localities in the county have been on the hunt for him, and are moving up to ascertain just how sure they are.

Willis B. Hurd started in politics several years ago as the chief deputy of our democratic whippersnapper, Dan Jerrie. He skipped out before his time expired, and Hurd, as undersecretary, was acting through the remainder of the term.

Hurd was a Republican, and, at the next Republican convention received the nomination for sheriff. He filled the office creditably, and was re-nominated and re-elected. Hurd's last term was marked by a conspicuous lapse of morals on the part of the chief law officer, and a growing inclination to work his friends for all there was in it.

Well, Willis has gone. The Hurd City Hotel means a \$500 board bill, and, but we will not comment. Hurd was agent for the John Hancock Insurance Company, and Commissioner of Schools, Kaney and County Treasurer. He was the surety on his bond. It will cost these worthy gentlemen nearly \$500 each to settle up.

Measles, hardly a new disease in destitute circumstances, and last Friday a subscription was taken up for her in Hurd City.

But, farewell, a long farewell to the Friday exiles. We can spare him, much as we mourn him.

The crooked man who on Monday with goods for G. V. Nash.

Rev. F. L. Thompson, of Potomac, will lecture at the M. E. church on Monday evening, April 9th. Subject, "Youth, yesterday, to-day and tomorrow."

The sugar crop at the hall on Wednesday evening was well attended. Receipts, \$13.75.

M. S. Halsey has moved into the country, and will occupy the Halsey house until his own is completed.

Wm. F. Ford has moved from his farm in thanks to his summer residence in Norway.

S. B. Chase has made all the maple sugar he has and has returned to Chicago.

Twenty-nine children, including: Vincent, Wm. Hurd, Clark, John, George, Lewis, treasurer, H. C. Halsey, minister, Albert O'Brien. The proposition to buy a road grade and to take money for a special tax, was known. So we will try the old, old method again, which is even now, of doing it by district vote. \$100 in this way goes about as far as \$100 under the money system in the hands of the commissioner. You can imagine George H. Van Pelt's feelings when he heard of it. He has Van Pelt's beautiful appearance. Write him up again, Van, and give this Hall Columbia for his service.

Sixty families wintered through in good shape under a hail-moon of the depot. Growing you see.

Dr. E. S. Gardner will be home from Cleveland this week. He has been attending medical college. He has been appointed postmaster here.

W. L. Brown has moved back to his farm. He will handle the lever at the Harker mill in Traverse City this summer.

Capt. F. W. Smith's catarrh comes out this spring a full degree "Missippi down channel." She will do lots of loving, and be ready for picnic parties at all times.

Two good houses have been erected near this spring, and we look for more.

J. E. Wagoner is building a house on the 60 acres lately bought.

W. W. Hildner has purchased the house and lot of A. Suparman, and a lot of Will Seymour.

A prominent vertical strip of light runs down the center of the page, suggesting a binding or a fold. The rest of the page is mostly black, with some faint, horizontal lines and speckles visible, which could be remnants of text or a table. The overall quality is poor, with significant noise and artifacts.

Charlevoix Sentinel.

Established 1894.
WILLARD A. SMITH, Editor.
CHARLEVOIX, APRIL 18, 1894.

Mure From the Road Fund.
Published Wed., April 18, 1894.

To the Editor:
It was not necessary to have made the correction in my last letter, as the money tax for roads was voted down. If the rest can stand it I can.

I have promises from two good men to come to Norwood and buy farms this year. I am glad they did not come with me last Wednesday, (April 4th), as had they done so, the condition of the roads between Norwood and Charlevoix was such that they would not have paid \$5 per acre for the best farm in the township.

I may be able to fool these people later on into coming to our town, but I shall take a time when the roads are at their best. Sometimes a man feels justified in fooling others, but never in fooling himself, and as for me, I really did not suppose there were so many short-sighted voters in all Northern Michigan as we had in our township at the last election, for when people fail to see the benefit of a road made from a money tax, under the supervision of a competent commissioner, as compared with the old pathmaster system, words to adequately express my feelings fail me.

The price of a year's subscription to the SENTINEL is \$1.50. Well, what would you think of a man who would be willing to bring you in \$7 or \$8 worth of wood or potatoes, or some other farm truck, instead of paying the \$1.50 in cash? Would you not be suspicious of him? Would you not conclude he didn't know a good thing when he saw it? Or that he placed an exceeding low value on the price of his own labor? This is the way it strikes me on the road question; and the comparison is about the difference between a money tax and "fooling out"—I won't say working out—the road tax.

We elected a road-builder this year for road commissioner, but what good will it do, as he has no money to make roads with. I cannot understand why the people who elected him did not have sense enough to vote to give him something to do, and something to do it with. Then those who drive between Charlevoix and Norwood will have an opportunity to see the difference between what Mr. O'Brien could do and what Mr. Vandusen did do, with \$15 money tax last year.

With a word to our newly elected pathmasters I will close. Do not scrape the soft mud from from the sides of the road and put it in the road, thereby making them worse instead of better. *Be: put on gravel. Then ditch and drain and put in big deep sluiceways,* and if you only make 10 rods of road, have it good. To the owners of farms I will say, plant trees in nice straight rows on both sides of the road, and in a few years you will have a boulevard equal to Lincoln park drive on the lake shore in Chicago, and instead of getting \$50 an acre for your land, you can get \$100.

Yours truly,
GEO. H. VAN PELT.

Those who consider Senator Hill's opposition to the Wilson bill as merely factious may find themselves mistaken. The Senator is a politician in the full sense of the word. He is not the kind of man who goes into a fruitless opposition simply to annoy a rival. He is of the kind that "considers the end for the beginning." He is not of the sunny school that regards Mr. Cleveland's election as evidence of a turn of popular feeling toward free trade. He knows that Mr. Cleveland received a lower percentage of the popular vote in 1892 than was given to any Democratic candidate since 1876. Tilden received 50.84 per cent in 1876, Hancock received 48.20 per cent in 1880, Cleveland received 48.48 per cent in 1884, and 48.00 in 1888, but in 1892 his percentage fell to 45.50. It was the growth of the Republican party in the North that elected Cleveland in 1892. A tariff verdict was not rendered in that year; nobody knows this better than the astute Senator from New York.

East Jordan Antiquities. At the meeting of the County Agricultural Society last week it was voted to hold the County Fair this year at East Jordan, on October 2d, 3d and 4th. They also adopted a resolution appropriating funds for a permanent exhibition building. Elk Rapids Progress. Hon. Roy holds Landon left Monday morning for Oakland, California, where he will reside with his son, Mr. Will Landon. Mr. Landon has resided in this village for over twenty years, during which time he has held responsible positions, including the offices of Judge of Probate for this county and State Representative for this district. On Saturday evening last he was given a dinner by Mr. and Mrs. E. S. Noble, to which several of his old-time friends were invited. At about 9 o'clock the members of the masonic lodge rushed in upon the astonished guest of honor and presented him with a beautiful Knight Templaring.

While his home has been at Elk Rapids for a number of years past, he is one of the pioneers whose name is well known throughout the entire region. Perhaps no one man has done more to make the beautiful Grand Traverse Bay country known to summer tourists than Mr. Lewis. The Lewis House which he conducted successfully at Torch Lake for a number of years, was among the first resort hotels in the northern part of the state. The Grand Central, at this place, and Lake View House, at Elk Rapids, were also owned by him at different times, and it is only within a short

School Items.

On Friday evening, May 4, the

forward with so much interest, will
take place. The schools are asked
to take part, and it is hoped that
all teachers and pupils will become
interested. An invitation is also

being provided. The State Super-

J. H. ADAMS
TOWNSHIP CLERK,
Norton, April 23, 1894.

The Silent Reaper Gathers in Another
Old Settler

Orson Campbell, died at the
home of his daughter, Mrs. L. Cook,
yesterday morning, after three weeks
illness, aged 85 years. In the death
of Mr. Campbell one of the most
conspicuous of the early settlers of
this section passes away.

He was born in Cayuga county,
N. Y., coming to St. Clair county,
this state when 22 years of age.
Forty-two years ago, when the Strang
faction of the Mormon church
chose Beaver Island as the land of
promise, and established itself there,
the deceased joined them at St.
James, and all through the turbu-
lent days of Mormon supremacy at
the Beavers he was conspicuous, but
was always a dissenter from the
doctrine of polygamy, and in con-
sequence was always in disfavor
with the "Kings." Never, in the
years of his association with the
Mormons, did he yield in his con-
victions that polygamy was not in
accordance with sound Christian
doctrine. The widow who survives
him was the one wife which the
doctrine of Paul taught him should
be the marital allotment of the true
follower of Christ.

Mr. Campbell died a member of
the church of Latter Day Saints,
and the writer of this in common
with those who knew him best, be-
lieve him to have been a devoted
and consistent Christian man. It
can truly be said that Orson Camp-
bell walked with God.

The deceased continued to reside
on Beaver Island after the Mor-
mons were driven out, where he
followed farming until nine years
ago, when he removed to this place,
where he has since lived among
his children. Of eleven children
only three survive him, Ben and
Smith Campbell, and Mrs. L. Cook,
all of this place.

The funeral will occur this after-
noon from the Baptist church.

UNITED AT LAST

MISS M. E. BARON

United at last, the two great nations of the world, the United States and the United Kingdom, have at last reached an understanding. The long and bitter struggle has at last come to an end. The two nations are now united in a common purpose, and the world is at last at peace.

The first day of the celebration was a day of great rejoicing. The people of both nations gathered in the streets, and the air was filled with the sound of music and the sight of flags. The two nations were united in a common purpose, and the world was at last at peace.

The second day of the celebration was a day of great rejoicing. The people of both nations gathered in the streets, and the air was filled with the sound of music and the sight of flags. The two nations were united in a common purpose, and the world was at last at peace.

The third day of the celebration was a day of great rejoicing. The people of both nations gathered in the streets, and the air was filled with the sound of music and the sight of flags. The two nations were united in a common purpose, and the world was at last at peace.

The fourth day of the celebration was a day of great rejoicing. The people of both nations gathered in the streets, and the air was filled with the sound of music and the sight of flags. The two nations were united in a common purpose, and the world was at last at peace.

The fifth day of the celebration was a day of great rejoicing. The people of both nations gathered in the streets, and the air was filled with the sound of music and the sight of flags. The two nations were united in a common purpose, and the world was at last at peace.

The sixth day of the celebration was a day of great rejoicing. The people of both nations gathered in the streets, and the air was filled with the sound of music and the sight of flags. The two nations were united in a common purpose, and the world was at last at peace.

The seventh day of the celebration was a day of great rejoicing. The people of both nations gathered in the streets, and the air was filled with the sound of music and the sight of flags. The two nations were united in a common purpose, and the world was at last at peace.

SOLDIERS AT HOME

THEY TELL SOME INTERESTING ANECDOTES OF THE WAR.

One of the most interesting anecdotes of the war is the story of a soldier who was captured by the enemy. He was taken to a prison camp, and he was treated very badly. He was starved and beaten, and he was forced to do hard labor. But he never gave up. He kept on fighting, and he finally won the war.

PULLMAN MEN GO OUT

BIG CAR SHOPS CLOSED UP TIGHT.

The Pullman men have gone out on strike. They are protesting against the new contract offered by the company. They say the contract is unfair, and they want a better one. The company has refused to negotiate with them, and they have decided to go on strike.

The strike has caused a great deal of trouble for the company. The car shops are closed, and the cars are not being repaired. This has caused a great deal of inconvenience for the passengers. The company is trying to get the strike over as soon as possible, but the Pullman men are not willing to go back to work until their demands are met.

The Pullman men are demanding a higher wage, a shorter work day, and better working conditions. IF A BAKING POWDER IS NOT UNIFORM IN STRENGTH, SO THAT THE SAME QUANTITY WILL ALWAYS DO THE SAME WORK, NO ONE CAN KNOW HOW TO USE IT, AND UNIFORMITY GIVES LIGHT AND FLAVOR TO THE PRODUCT.

All baking powders except Royal, because of its uniformity of strength, will not do the same work. Royal is the only baking powder that is uniform in strength. It is the only baking powder that will always do the same work. It is the only baking powder that will always give light and flavor to the product.

It is always the case that the consumer suffers in pocket if not in health, by accepting any substitute for the Royal Baking Powder. The Royal is the embodiment of all the excellence that it is possible to attain in an absolutely pure powder.

It is always strictly reliable. It is not only economical because of its greater strength, but it will retain its full leavening power, and its other powder will, until used, and make more welcome food.

MY CLOTHING STOCK HAS ARRIVED

A stock that is a guiding star for fair and honest values. We fully guarantee the quality and the workmanship of all to be the BEST. A word in regard to cheapness, now something for nothing is not business, and never will be as long as there is business. Everybody of course recognizes the fact that a man is not in business either for his health or fun but to make money. He cannot possibly sell goods for less than cost for good clothing, and exist any length of time; and yet we have advertisements thrust upon us, in which people are claiming to sell you \$2 worth of goods for \$1. They seem to be laboring to induce the public to believe that they are always in the position to give them goods for nothing, but they don't do it. My goods are marked as cheap as goods can possibly be made. Put us to the test; our prices cannot fail to win. By the virtue in values, by the power in prices, we expect your spring and summer trade.

CHARLEVOIX SENTINEL.

Established 1899.

WILLARD A. SMITH, Editor.

CHARLEVOIX, JULY 4, 1894.

A RAP SHOWING.

The close of June will round out the fiscal year of the government, when the record of Democracy will be made up for the first time. It will show that the government is in the hole \$75,000,000 in one year, a shortage of over \$100,000,000 a month, that the gold reserve has been reduced from \$100,000,000 to \$75,000,000, and that the treasury is empty. It will show that the government is in the hole \$75,000,000 in one year, a shortage of over \$100,000,000 a month, that the gold reserve has been reduced from \$100,000,000 to \$75,000,000, and that the treasury is empty.

Never was the country so prosperous as during the two years of an interrupted operation of the McKinley law under Republican rule. All the trade reviews of unquestioned reliability bear witness to this fact. There was no deficit from any source. Never before were the industries of the country so healthy and never before were there so many new employments at good wages. There was not a sign of adversity anywhere until after the presidential election in November, 1892, not until the McKinley law was repealed.

That the eyes of the people have been opened, that they will not be fooled again right away is amply attested in the elections held during the last few months. Democracy will not reach the end of its career until it has demonstrated its incapacity to manage the affairs of the country or to regulate properly the budget of the United States. In almost every respect it has failed in carrying out its pledges.

As we write President Cleveland has issued a proclamation, which virtually amounts to the "riot act".

Turbulence has materially lessened. The mob is under control in Chicago, but the strike is by no means over; indeed it spreads and threatens dire results upon the country in general paralysis.

Not one thing is certain. The government of the United States still lives, and will live, despite anarchists like Governor Alge of Illinois, and Waite of Colorado, who in this hour of public distress have plainly exhibited their sympathy with anarchy.

We have faith in "old glory". Anarchy and insurrection are sure to be trampled in the dust. It will flourish long after the fires of passion have done their work upon anarchy.

Death to Anarchy, and confusion to the Governor of the State of Illinois.

MY CLOTHING STOCK HAS ARRIVED

A stock that is a guiding star for fair and honest values. We fully guarantee the quality and the workmanship of all to be the BEST. A word in regard to cheapness; no something for nothing is not business, and never will be as long as there is business. Everybody of course recognizes the fact that a man is not in business either for his health or to make money. He cannot possibly sell goods for less than cost for good clothing, and exist any length of time; and yet we have advertisements thrust upon us, in which people are claiming to sell you \$2 worth of goods for \$1. They seem to be laboring to induce the public to believe that they are always in the position to give them goods for nothing, but they don't do it. My goods are marked as cheap as goods can possibly be made. Put us to the test, our prices cannot fail to win. By the virtue in values, by the power in prices, we expect your spring and summer trade.

STATE TEACHERS INSTITUTE.

On Monday morning Aug. 20, the teachers of Charlevoix county assembled in the high school room of Charlevoix, for the first session of the State Institute for this county. The fact that the popular Institute instructors A. J. Murray and G. A. McIlwain were to conduct the institute secured to it a large attendance. The teachers welcomed them again this year.

The work planned covered those branches in which the teachers of the county seemed most deficient. Language, arithmetic, civics, government, reading, and orthography were the subjects dealt upon, but other branches received as much attention as the time permitted.

The institute was divided into two sections, senior and junior. The senior division discussed advanced methods while the instruction in the junior section developed methods in primary work. In arithmetic, the importance of thorough work in beginning a subject was made free use of cancellation in teaching the different cases under percentages. Rules for cancellation were developed from figures drawn upon the board.

The important subject of civil government was presented, and methods were given for teaching the different departments of government. The reasons for the legislative, executive, and judicial departments were discussed, and teachers were urged to make these points clear to pupils.

The subjects of language, grammar, reading, and orthography were presented by Mr. McIlwain. Teachers should make use of objects in teaching language and reading. Through oral drill and a judicious amount of written work, should be secured. Under technical grammar, infinitives and participles were discussed, and methods presented for teaching this difficult part of grammar.

At the close of each session, an examination was held. In this meeting, members of the institute asked questions and gave the points made prominent during the day. Everyone felt that this was a very profitable exercise.

Another profitable and interesting feature of the session was the reports of the work of each day. These reports gave a summary of the work presented in the different sections, and were enjoyed by all.

The general talks by Mr. Murray and others were pleasing and instructive. The evening sessions were largely social. On Thursday evening the teachers were given a short ride. A short program on board the boat was enjoyed. The teachers made in thanking the citizens of Charlevoix for the delightful ride and for the many kindnesses shown them during the institute.

Mr. McIlwain came from the southern part of the state was much pleased with Charlevoix, and said he thought it was the most beautiful place he had ever seen. We agree with him, and trust that he may visit us again in the near future.

CONTENTED WHEN MISERABLE

World Editor on a "Familiar" Theme

When a regular full-time newspaper editor, 34 years of age, a man who is never contented with his lot, is miserable, he will go to a place of his own, and, with most natural tenderness, adopt and leave the grief of somebody else. The editor of the "Familiar" is a man who, if offered the chance to go to a place of his own, will go, and, with most natural tenderness, adopt and leave the grief of somebody else. The editor of the "Familiar" is a man who, if offered the chance to go to a place of his own, will go, and, with most natural tenderness, adopt and leave the grief of somebody else.

MYSTERY OF ONE BIKE

Brother, World Editor on a "Familiar" Theme

There is a New York family which has a country place in Westchester county. In the family are two young women who, in their spare time, are extremely diligent and extremely contented. One of the young women, who is a sister of the editor of the "Familiar," is a man who, if offered the chance to go to a place of his own, will go, and, with most natural tenderness, adopt and leave the grief of somebody else.

Well, here we are again.

Frank Pearl, while taking a load of goods to Advance on Monday

was thrown from his wagon and had

collar bone and one rib broken.

Mr. LeFevre was down Monday

in consultation with Dr. Gardner

over a thumped foot of foot. I believe

it was smashed some time ago, and

was feared amputation was necessary

but they have now hopes of

saving it.

East Indian teams are now plowing

closed, and this is her R. K. station.

W. H. McCarty, of Charlevoix

Many logs are being put up in

the woods around here, and 23 tons

start running night and day.

Wm. Thors and wife are now the

owners of a fine bay who arrived

Sunday.

A. E. Rickard moved his family

and household goods from East

Jordan Wednesday into his new

residence on Harris street.

Prospectors are now very good for

a gold mill at this place in the near

future.

Miss Bertha Harris, of Norwood,

is now over to Ellsworth attending

to bringing her pet cat Jim down

in a bag. James evidently did not

like the looks of our town, as it

is immediately left, and will be

at his last but four weeks from the

day he left Norwood he arrived

back in good order but bearing

several scars as mementoes of his

trip of twelve miles.

Mr. Ed Stevens has moved here

from Chicago and has been doing

fantastic work making there and

will continue her trade here and

will be glad of your patronage. It

will be good second house west of

SOUTHERN MICHIGAN.

Dr. Henry has a writing school at Central Lake.

A call will be extended to Rev. James G. Inghis of Chicago, a former pastor of the Presbyterian church, to return to the pastorate at Pontiac made vacant by the resignation of Rev. W. K. Wright.

East Jordan Enterprise. Advertisers from B. H. H. have been to the effect that he expected to arrive in Los Angeles, Cal., January 18th and feeling no worse from his long journey. His sister Jennie accompanied him.

Mr. Harris gave notice that at some future day he would ask leave to introduce a bill to authorize the township of South Arm in Charlevoix county, Michigan, to borrow money for the building of a bridge and to issue bonds therefor.

The Traverse City Express says that the hatter with at this place expect to cut about 15,000 hats of the hat for this year and probably the hat at East Jordan will cut as much as last year also, if they do, with the other mills here running. We look for a better business the coming year.

The pottery clay deposit recently discovered at Boyne Falls is a gem of the kind. The clay is of the most possible consistency and burns to a fine glaze and extra hard. They are shipping to Cleveland, Ohio, and are being used by the pottery industry of the same kind in that vicinity and some years ago was discovered and tried for the clay but the dealer did not realize what the substance really was.

Traverse City Express. The survey of the route of the Traverse City Peninsula & Old Mission Electric Railway was completed today. Three routes from Boyne Harbor to the Mission were considered. The one most central was chosen. It leads north from Boyne Harbor, through the adjacent to the property of Captain F. J. Johnson, Peter Zunka, J. McCuskey, W. A. Marshall, W. Goldson, E. J. Laid, J. C. Sney and the Porter place to Tompkins, Lake then turns east, south of the lake direct to the dock at Old Mission.

A monster snow storm, 60 feet long was seen at Potomac Friday. Two carpenters were working on the roof of a building, and when the snow came they were blown away. They were blown away from where they first saw it. They watched it for some time, and then they saw the building and several chimneys that they had seen, glassed were blown and about 70 people went down to the shore of the lake to look at it. All who saw the serpent describe it as being about 60 feet long, very dark color, with a head as large as a barrel, which one in a while was raised out of the water. The serpent swam around in plain sight for some time, moving with great speed, first coming toward the shore, and then changing its course and going out toward Lake Michigan, and finally disappearing from sight. All who saw it are positive in their assertions, and say that they had drunk nothing but coffee and ate nothing but bread.

East Jordan Enterprise. Mr. Clark, J. Dixon, formerly editor and publisher of the Enterprise arrived in town on Saturday evening last and is greeting old friends here. Since leaving here, four years ago, he went to New York City, where he remained a short time, and then with his boys went back to London, at or near which place he continued to get a small printing office, but the business not proving satisfactory, he came back to this country and going to Chicago, was for some months in the suburbs of that city. Having secured advertising privileges from the business men of a village of 200 or 600 inhabitants in Mercer county, Illinois, he removed with his family to this place and published a paper there for a year, when not being able to renew his advertising contracts he gave up the paper and returned to Chicago, and a few weeks ago, with some others, launched an illustrated weekly paper, called "The Avenger". This however, appears to not have sufficiently appreciated by the public and is no more. His wife and daughter have returned to East Jordan, and the two boys are working in Illinois. He is looking for a location, and if successful, has been guaranteed to him, may start another paper here. His attempt to repurchase the Enterprise fell through on a difference in the price.

Crackers will have something to talk about this month. It will be Washburn's "Blue Mark" sale.

It is long to be evident that the Charlevoix Historical Society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright.

After the late Mr. Wright's death, the Charlevoix Historical Society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright. The society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright. The society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright.

And if you remember the Charlevoix Historical Society, it is evident that the society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright. The society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright.

But that Charlevoix has received the range of richness when a house society should not be the only one to have a "Blue Mark" at the house of the late Mr. W. K. Wright. The society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright.

The old piece in this regard must have it with the "Blue Mark" at the house of the late Mr. W. K. Wright. The society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright.

Your own interests are concerned in the property of the late Mr. W. K. Wright. The society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright.

Get your clothes and your dress made at home. The society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright.

The ladies of the M. E. church were a success in their efforts to have a "Blue Mark" at the house of the late Mr. W. K. Wright. The society has been planning for some time to have a "Blue Mark" at the house of the late Mr. W. K. Wright.

CONSUMED BY FIRE.

Herbert, death of James H. Miller, of
This Place at Central Lake.

Again a Charlevoix victim, in the prime of life, the destroyer comes upon a family of five, again heart-stricken and again a family of five is left in the hands of the Lord.

On Sunday night last, the Walters house, at Central Lake, was destroyed by fire, and Mr. Walters bereaved of wife and Mr. Walters bereaved of wife.

The landlady states that the house caught fire in the lower part of the house during the night. A general alarm was given and he supposed every guest in the house was awakened.

After the house was destroyed, the unrecognizable remains of Mr. Walters were found upon the bare floor of the house.

The terrible news was telephoned here at 2 o'clock a. m., and a delegation left here at 5:30 for Central Lake, and the remains were brought here in the afternoon.

James H. Walters was one of our most popular business men. "Jim" did not have an enemy in the wide world; he was the epitome of the expression upon the streets Monday morning; and it was true.

A smile always wreathed his countenance, and a hearty salutation always greeted him, either on the street or in the "Good Luck Clothing Store." His geniality was contagious, and his good nature bubbled from him as kind a heart as ever.

Mr. Walters was about 35 years of age. He leaves a wife and young daughter, for whom the entire community unites in deepest sympathy.

The funeral occurred from the M. E. Church, yesterday afternoon, under the auspices of the Knights of Pythias and Foresters. Rev. Mr. Cook officiating. The attendance was large and the feeling of sorrow and sympathy most intense.

NORTHERN MICHIGAN.

Frank Cronch of Central Lake Mich., has a hen whose record on other English-speaking fowl can hope to break. This hen, which, for the sake of brevity, we will call "Tharator," began laying eggs last spring, and at last accounts had the remarkable number of 263 to her credit.

H. Belknap of Oak Lake, came to town yesterday with a goat sized pig—a pig of hay—which he had loaded the day before. Arriving in town he sold the pig to D. J. Morgan. While the load was being removed and the pig nearly all off the wagon, a hen flew from amid the hay with a choice egg in her beak, which she dropped on the ground. At the same time an egg was found, still warm, which her husband had hidden route. The hen had been confined in the load for about 24 hours.—*Traverse Bay Eagle.*

Yolksky Journal. An unfortunate and disgraceful affair occurred on the line in Charlevoix county a few days ago. A young man quarreled with his father, a fight followed, and in the melee the father bit the young man's hand, lacerating one of the fingers so badly that for a day or two it was thought that the hand would have to be amputated on account of blood poisoning. The father is a well known farmer of Iosco township and is prominent in church work.

The examination of Dr. Myron S. Brownson, at Traverse City, charged with causing the death of Hattie Zell, Oct. 19, was completed lately. The doctor was bound over to the circuit court, which convened April 2. The principal witness was Anna Brown of the sanitarium where the girl died, who testified that the doctor wanted to kill himself with a revolver, but she locked the door and kept him from leaving the room where the dead girl was. Before the girl died he had told the witness of a case which he had that would bring him \$200, but she could not swear that it was Hattie's case. Brownson is still in jail under \$5,000 bonds.

A young man who had been boarding at the Walters house at Central Lake rushed up to his room while the house was burning to recover a new suit of clothes in which he was recently married. He grabbed his trunk and kicked out the window, threw out his trunk and hurrying down stairs dragged it away from the burning dwelling, confident that his heroic act had saved his wedding suit. He afterwards opened the trunk and found that it contained only a pair of old socks. His clothes hanging on the wall beside his trunk and were burned.

Just out, Marcella in paper cover at F. N. Chapels.

Ellsworth Echoes.

New maple syrup is in the market in considerable quantities. The roads are covered with mud most all there is of it, except that its track is 2 to 3 feet deep.

Quite a number of houses have already been built this spring in town.

Say, Charlevoix, how much would you now give for a chunk of land just the size of Banks to add to your territory?

Several hundred people gathered at the station Monday p. m. to see the new big engine that had been advertised to go north at that time. It didn't go.

Grand larceny is the case against four or five of the boys who got full a few nights ago and broke into a store and stole a followa tub oles, candy, whiskey, 1 lb same, box candy and several other things. A detective from Grand Rapids was soon on the ground and they all skipped, but will no doubt soon be apprehended. Sugar social Tuesday evening, for the benefit of Ladies aid society.

The L. A. S. meet every Thursday after noon and its comfortable and have a comfortable time generally. "Side-walks are being put down in various parts of the city and will add very much to the looks of the place.

MARINE.

The schooner Sea Gem is hauled out at Washburn's yard for re-caulking.

Capt. Fred Lick, of Grand Haven, will sail the schooner Florence M. Smith this season. He has the schooner fitted out.

Sixty carloads of spruce timber for English shipyards will be sent from Traverse City to England as soon as navigation opens.

Thieves broke into the lighthouse at Harbor point, near Harbor Springs, Mich. and stole many valuable articles.

The tug Martin got up steam Saturday and the Avery began firing up Monday. The tugmaster Gordon is ready for business when the ice leaves Pine Lake.

The U. S. lighthouse steamer Dabha was the first boat of the season for this port. She arrived at 9 o'clock Sunday evening, and remaining here over night.

The steamer Petoskey arrived from Charage late last night and proceeded north at six this morning. The steamer City of Charlevoix left Chicago last evening, and should be here tomorrow night.

The steamer Columbia and Crescent, of the Traverse Bay line, left yesterday for Northport. The steamer Cummings, of the same line will be here four weeks yet, undergoing a rebuild at the hands of shipwright Roney and his men. The Cummings is receiving new deck and deck frames, new bulwarks, new boiler house, and other new works, and will come out as good as ever.

Milwaukee *Herald*. In order to keep pace with the rapid advance that is being made in passenger transportation facilities on the lakes Peter Kline has caused extensive alterations to be made in the steamer City of Charlevoix this winter. Although the steamer possesses ample power she has never fully met expectations as regards speed. It is sought to overcome the drawback by providing a much cleaner run, and to this end twenty four feet have been added to her length. For the comfort and convenience of passengers the cabin has been enlarged by the construction of girders projecting two and one-half feet over each side of the hull. The width of the main deck is increased correspondingly. In the cabin the saloon gets the benefit of the increased width and the feeling of being cramped into narrow quarters will thus be effectively dispelled. These changes will cause such an improvement in the appearance of the City of Charlevoix that those acquainted with the steamer will hardly know her when she again goes into commission.

Mr. Lizzie Mery is running a dairy on the north terrace, south of U. D. Woods, and now has ten cows seven of which are giving. The milk and there is enough for a few more customers. Send in orders.

The boys at the Bay shore line kilns let the dump car fall into one of the kuns Saturday and spent nearly a half day fishing it out.

Myron Jones has moved into the light house at Carpenter. This is not intended for a pun on the light house.

Not until we read it in last week's East Jordan Paper, did we know of the marvellous item that appeared some time ago in the East Jordan *Enterprise*, casting reflection upon the personal character of the editor of this paper. Generally the teacher of literature is at so little account that we cast the paper aside without a reading. Had we seen it at the time we should have done one of two things: brought criminal action against him or publicly horsewhipped the low scoundrel. But he is in good hands. Mr. Dixon is eminently capable of showing up the cur in his true light, as the embodiment of all that is contemptible and petty. He disgraces not only the profession of journalism but the dignity of mankind.

DINING-OUT GIRLS.

Two of Them to Each Man at a Chinese Dinner.

Perhaps no city in the world has the counterpart of these flower-boats for this Chinese city of amusement lacks in the main the element that pervades European haunts of revelry. It was a vast place of restaurants and hotels where the rich and poor men of Canton repaired to enjoy themselves. I have been given to understand that no Chinese man entertains in his own house, nor do his women folk join him in his feasts or revels. Hence there is a class of girls, the very large majority of whom are strictly virtuous, whose business it is to be pretty according to Chinese fashion, brisk, conversational, musical. In a word, to understand the art of entertaining. Their faces will be painted in white and pink—very artistically painted, smooth and soft-looking, delicately traced, sharp, black crescents will mark their eyebrows, writing Florence O'Driscoll, M. P., in the Century Magazine. Two of these young ladies will attend to each gentleman, sitting slightly back from the table at each side of the entertained. They will fill his liquor-cups, sip from them and pass them on; pick out dainty pieces of "chow" (food) with chopsticks, and hand them to him; crack jokes, fill and light his pipe, and all the while chat gaily and eat dried watermelon seeds. That is all I ever saw them do. Behind each group of three a solemn looking coolie or waiter, will stand to fan them all the while. Other waiters bring in food, wine and tea, change the dishes and attend to their wants. The meal will last for a long time. Eventually all will rise and retire to an outer room furnished with broad couches covered with nesting, opium pipes will be there for those who care for them, and tobacco and cigars in plenty. The girls will sit on the couches, laugh, fill the pipes, and still eat watermelon seeds, while the gentlemen will recline at their ease, enjoying their society.

Excursion to Michigan May 1st.

To enable people in other states to visit Michigan when the peach trees are in blossom, arrangements have been made for the sale on May 1st, of one fare for round trip, of tickets from nearly all points in Illinois, Indiana and Ohio to important points in Michigan on all lines.

Tickets will be good to return until May 25th, and stop off will be allowed at any point north of St. Joseph and west of Lansing, on tickets sold to stations on the C. & W. M. or U. I. & N. railroads.

Write your friends to take advantage of this excursion to visit the best state in the Union if they are thinking of changing their location. Perhaps they would be interested in seeing the famous fruit district of Western Michigan through which the "West Michigan" R. R. runs nearly its entire length.

The peach trees should be in bloom at that time.

Geo. D. HAVEN, G. P. A.

About Elephants' Tongues.

"Only five of the many people who have thrown pennies into the elephant's mouth," said Head Keeper Manley of the Zoological park to a Philadelphia Record man, "have noted that the tongue is hung at both ends. A tongue hung in the middle is a human condition, but elephants have a monopoly on those hung at both ends. The trunk suffers to put the food just where it ought to be, and the tongue simply keeps it moving from side to side over the rimber. When a peanut gets stuck on the elephant's tongue he releases it in the middle, like a moving caterpillar, and the shell cracks against the root of the mouth, to then disappear down a capacious throat."

Pretty Big Hammer.

Within a few weeks there will be a new trip hammer at the Watervorn arsenal capable of striking a blow equal to a weight of 125 tons. It will be the largest trip hammer in New England. Its height is 19 feet 3 1/2 inches. It will be supported by two legs, the distance between which will be eight feet. The stroke will be four feet six inches. The machine weighs 100 tons and the hammer three tons. When this hammer is in position the Watervorn arsenal will be able to forge any piece of steel which will be required by the United States ordnance department.

Charlevoix has a new industry. Daniel Swartz, of Grand Haven, has just established a plant here for smoking fish. They expect to smoke and ship at least 5,000 pounds per week during the fishing season.

Mason & Clay's opening Thursday and Friday last was an event in the mercantile history of Charlevoix. The window decorations were in a high degree artistic, and awakened unbounded admiration.

Charlevoix is now the county seat de facto and de jure. It will remain the county seat during future generations. Now let "white winged peace" spread its wings over all of us, and the ear of progress move on smoothly and gloriously. There has been enough of bitterness and suspicion. From the storm washed shores of Calhoun to the far western Hudson let there be peace. From Hudson on the west to Chandler in the east, let the olive branch be spread.

Harvey Peck has the masons, carpenters and material on the ground and is pushing forward the construction of his new residence on the south terrace.

Supr. Brower was up with the fish car yesterday and took the fry from the hatchery. Part of them were planted in Lake Michigan off this point, and the rest taken south.

The Fountain City House comes out in new and bright spring dress. The new wash room and the repainting and decorating gives the house a new appearance, and the abundance and quality of the menu, which is a household word, will give the house its old and merited prestige.

Three East Jordanites will receive to Charlevoix at once. Harry Mendenhall, of the Commercial Hotel, will come next week. Mr. Doherty, the tailor, will remove his shop here, and another gentleman, whose name we have forgotten, is arranging to move. Come on, plenty of room.

"Lawyer" Loring, of East Jordan, Gen. O. L. Spaulding and W. A. Norton, of St. Johns, and ex-Judge Russell, of Traverse City, were at Boyne City yesterday, as counsel for our friends of the late county seat. It was a brilliant array of legal talent for a cause in which there was not a shadow of justice on right and as little prospect of success.

Our Harter Springs neighbors were victorious in their county seat contest in the legislature last week, and they celebrated the event by a big blow-out the night the bill was defeated. This only postpones the inevitable. The contest will be resumed in another form no doubt, in the future and Harter Springs will have to fight it out against the onslaught that Potomac will make on her works.

The Charlevoix Summer House Board, at its annual meeting last fall, unanimously voted to put in an independent system of water-works on the grounds this spring, and yesterday a contract of two and three inch pipe arrived, for 7,500 feet of main. The supply of water will be taken from a well 75 to 100 feet deep, and a contract for one of them is already let. It will be sunk on the west side of the resort, and a steam pump-house erected. It is to be regretted that the city system could not have been placed on the grounds, but the Board and the Council could not get together, and the above is the result. Outrages will not be supplied until after a system of sewerage is put in. Work on the system will be commenced at once under the supervision of Warren Miller and it is expected that a large number of men will be employed, in order to push the work as rapidly as possible. The Charlevoix Hardware Co. will do the plumbing.

The bills of various firms, affecting the fishing industry, are yet pending in the legislature, but their fate is only a matter of guessing. There is a rapidly growing sentiment among those who are familiar with the past and present of the great lake industry, that there should be a closed season, and a rigorous enforcement of the law regulating the size of mesh in nets. Mr. Maxwell, the representative of the A. Booth Packing Co., recently told the writer that he had seen trout in the Chicago retail market that weighed less than a pound each. There can be but one result of this reckless catching of fish—total extermination. While the state and national government, in a large expense, working to increase the volume of this great industry, through kindness and greed are actually destroying their work. Fishermen themselves are more interested than all others in this matter, and should co-operate with our legislators in the work of checking this indiscriminate slaughter of fish in the great lakes.

Superintendent Inspector General Dumont says that the elevation of steamer lights must be measured from the spar deck, even where it is necessary to erect a pole spar upon which to suspend the after light. On a great many steamers the lights will have to be hung higher than the minimum elevation required by the law, owing to the arrangement of cabins and pilot-houses. The diameter for bells on steamers, barges and sailing vessels must be at least 16 inches at the mouth.

The SENTINEL
W. A. SMITH, ED.

MAINE.

The steamship Pine Lake arrived back from Chicago yesterday noon.

The schooner Arctic was taken out of dry dock at Manitowish today, and is again afloat.

The schooner Sunshine unloaded coal for Tullock this week.

The U. S. survey steamer Thetis, Capt. J. H. Henshaw, left for the coast of Maine, and will be in port about a week, Engineer Hunter took soundings here.

Stylish, of Franklin, has bought the schooner Geo. W. Westcott, of J. A. Boylen, of Milwaukee. Sunday and Monday the harbor presented a very business-like aspect. There was almost a forest of masts of vessels lying here and there about the harbor.

The schooner Jeanie Mullen was out of the ways last week, and was towed out in the bay where she picked up her anchors where she left them when she was piled up last fall.

Capt. Geo. J. Bennett of the fine schooner Hunter, Saville, which unloaded coal for Gilson this week, is a nephew of our Capt. J. J. Bennett, and they had not met for nearly 20 years until last Saturday. Capt. Bennett has a fine schooner.

On account of low water at Sault Ste. Marie, says the Cleveland Philadelphians, owners of large vessels that are not hampered with cargoes are taking them out of the lake Superior trade and sending them to Lake Michigan.

Charles Meers, one of Chicago's oldest residents and a pioneer in the lumber trade in the West, is dead at the age of 83 years. Deceased at one time owned several lumber-carrying vessels on Lake Michigan.

The schooner A. F. Grover was taken out of dock at Manitowish last week. Capt. Lorenz was surprised to find that the vessel had been entirely unharmed. The leak was caused by an open seam.

The steamer Pine Lake left Manitowish on her trip to Chicago. The wreck of the schooner J. L. Hurd, at Harbor Springs, lies on a shelving beach with her main deck well out of water. Capt. John Hurd had the schooner Magic built along side taking off all the lumber cargo that could be reached and removed. The Hurd carried about 3000 feet on the main deck.

This with all stowed between decks and at least two tons from the lower hold were secured, and what is left may be sold to good use for a long time. There was no insurance on the lumber. Bidding for the wreck pieces will be quite active when it is put up under the hammer.

Among the parties desirous of securing the wreck and a bargain are said to be Richard, Walter & Co. of Sheboygan, Leithen & Smith of Surgeon Bay and John Monro of Grand Haven. Calling to a disagreement among the bidders, the sale of the wrecked steamer which was to have taken place May 3, has been indefinitely postponed.

When the Northern Michigan line steamer City of Chicago left Milwaukee Friday for the Straits of Mackinac the carrier was a passenger Capt. J. V. Tuttle, who took with him all the paraphernalia requisite for a thorough search of the bottom of Lake Michigan near Skitkagie in order to locate the wreck of the fine steamer Cygnus, which was sunk on May 10 by the steamer Joseph L. Hurd. This indicates a strong determination on the part of the English underwriters to recover the vessel and as much of her cargo as possible in order to lessen their losses.

Capt. Tuttle spent Thursday at Fond du Lac, where he was met by the representative London Lloyd's in New York City. Mr. Tuttle had been out of the city in the latest of the underwriters on the cargo and immediately came to Chicago and wired an urgent request for an interview there. As a result of the meeting Capt. Tuttle was commissioned to search for the Cygnus, with instructions to continue the search until the wreck is found. This arrangement received full sanction from London. Capt. Tuttle's vessel will consist of a tug and a crew of 10 men, with a total of 100 tons of rafting chain with 500 feet

of drag line attached to each end. Two tug or small steamers will be employed to drag the wreck. Capt. O. E. Wilbur, by appointment joined Capt. Tuttle here for the search trip. Capt. Tuttle was here last week and had an extended conference with Capt. Wilbur regarding a search for wreck.

What "Ocklebock" Thinks

How many in the pen on the side

with a in the procession that moved

along one across Friday morning

that disclosed itself to the papers

and mamma, the mules, cougars

and aunts, and many of their friends

on Friday evening at the opera

house when the curtain rose.

"The notice of the class, 'At the

Gate,' in the local fabrication, was ap-

propriately displayed on the arch-

way at a party given by the land-

lady, and, stretching far in per-

spective, with rock and rivulet,

hedge and cottage, forest and moon,

it was all a beautiful and striking

symbol of the past and the be-

lief of the gateway and the un-

traveled paths.

Discovered with plants and flowers

and ferns, and a few of the most

careful, the stage was arrayed

in a setting that was a vision of

beauty.

"The occasion, with its elaborate

entertainment, and its dignified

and scholarly, was sufficient to

make the old fund who grows when

he pays his school tax proud of his

community.

"We gave a list of the Class of '95

last week. There were seven of

them. There is lack of old mem-

bers. One of them Mr. Stoney, has

an older brother in the Alumni—a

member of the Class of '94.

SOUTHERN ARCHERY.
The Indiana archery field at Keweenaw last week was a great success, and considering that it was not the regular annual meeting of the district, was largely attended.

The A. B. championship for northwestern Michigan will be held at Traverse City this year, Tuesday, Wednesday and Thursday, Sept. 15, 16 and 17. It will be a great event, and there will be a large gathering of the boys in blue and their friends. The full program for the three days will be given a little later.

Huber Springs Grange. F. Shaw & Son are undertaking having a large hall built for people, and the latest thing is a pneumatic hunting boot which they have just purchased. It is something in the shape of a large horn collar and has a pair of rubber leggings and boots attached on the inside side. The operator sits on the boots and, with some faith, thus later starts to walk upon the water. The upper part of the machine has been tested. There is a rider, and sort of paddles on the boots which open and close as the person steps thus propelling the boat. There are also wheels around the edge in which to place break when using the boat for hunting ducks.

the East Jordan county convention
were elected: Geo. W. Beaman, Lem
See, Frank Sears, Harry Whitfield,

gation, but it complexion on the con-

seen. The county convention occurs
to-morrow.

On Saturday night last, Mrs.
Robert A. Miller of London, died,
aged 55 years. Mrs. Miller from her
girlhood, has been a resident of
Northern Michigan, having been,
with her parents, a settler in the Mor-
mon days. Away back in the '60s,
Mr. and Mrs. Miller located on a farm
in Marion, near the Vostburg place,
where they for many years resided,
moving from there to fronton about
twelve years ago. Mrs. Miller was a
woman of many sterling qualities of
mind and heart; was a most affec-
tionate wife and mother, and her death
is a sad bereavement to the husband
and three children whom she leaves.
The widow of Mrs. Miller has many
times enjoyed her kind hospitality,
sincerely extends his sympathy to the
friend of pioneer days, and his
stricken family. The funeral occurred

passed over to Emmet county school,
and the language, customs and
virtuous habits of the inhabitants
thereof must now undergo a change
in their adjustment to the new order

The Bonnet Lake dock line will
be materially improved this spring.
Capt Willard will not only repair the
dock on the Fox property, but has
arranged it to build on the Gellick
farm, adjoining, which will connect
the sea dock. Two barges will dock
his front in time for summer business,
and then but very little improvement
will be necessary to give a continuous
dock line from the river to Clinton
street.

an interchange of compliments and
good will. The event was a very
pleasant one for all present.

Many are the words of praise

STEWART DICK GRANT.

He Was in the Idaho in the Old Days.
His Death in Chicago.

Many of our older residents will re-
member Dick Grant, who in the old
steamboat days, was the steward of
the steamer Idaho, with Capt. Burton
Penny. The later Ocean of the 25th
has the following concerning his
death in Chicago:

"Richard Grant, a colored man, who
kept a restaurant at No. 511 State
street, died Sunday night. By his
will he left all his little property to
Hugh MacMillan. This was the way
he took of expressing his gratitude
for the kindness of his friends forty
years ago when he was a runaway
slave.

"Last Sunday MacMillan received
a message that Grant was lying
seriously ill at No. 312 Dearborn street
and wished to see him. When he
reached the bedside of the sick man
he found he was dying, and the
special favor Grant asked was that he
write his will.

"The scene that followed was a
singularly pathetic one. The dying
man gathered himself up in his bed,
and he told his friend a debt of
gratitude that had never been paid,
and he would try to discharge it. In
this final act of his life, MacMillan
was surprised and embarrassed to find
that it was his own name the colored
man wished put in the will as the sole
legatee to the little property he was
leaving. He protested, but without
avail. MacMillan must write his own
name in that will if Grant would die
happy.

"The first chapter of the story was
enacted in the days preceding the war,
when Grant escaped from a Kentucky
plantation, crossed the Ohio River,
and found himself a penniless fugitive
from justice in Cleveland. Mac-
Millan, who was second mate on the
steamer Mohawk, offered the young
colored man a job on his vessel.
Grant proved himself trustworthy,
and in time was promoted to chief
steward on one of the boats of the
Western Transit Company, to which
the Mohawk belonged. Fifteen
years ago he embarked in the restaur-
ant business for himself.

"The property willed to MacMillan
is not worth much money, but the
circumstances attending the transac-
tion gave it a value that is not easily
assessed. Grant has no relatives."

When Dick Grant was steward of
the Idaho, there was no meat market
in Charlevoix, and Dick had a few
"pots" here when he would occasionally
favor with a steak. The writer
of this was one of the favored ones,
who has ever since gratefully remem-
bered the partly colored steward of the
Idaho.

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow \infty$. It is shown that the solutions of the system (1) tend to zero as $t \rightarrow \infty$ if and only if the matrix A is stable. The second part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow \infty$ if the matrix A is not stable. It is shown that the solutions of the system (1) tend to infinity as $t \rightarrow \infty$ if and only if the matrix A is not stable.
